

# Honeywell JetWave™ Connectivity

**Get connected, stay connected worldwide with Honeywell's JetWave™ Technology**

Honeywell's JetWave™ satellite communications terminals enable global connectivity via Inmarsat Aviation's Global Xpress Ka-band network. Designed to provide broadband-class data connectivity, the hardware and network are optimized for mobility to provide a consistently outstanding passenger experience around the world.

## Benefits

StandardAero designed a purpose built radome for the Gulfstream III, IV, V, 500 and 550 to ensure optimum performance and connectivity when installed with Honeywell JetWave™ technology.

StandardAero also has an STC for Bombardier's Global Express covering the installation of JetWave™ under a Honeywell Ka radome, along with a Honeywell CNX-900 router.

## StandardAero – The Right Choice

At StandardAero, we retain a team of the most highly experienced avionics experts in the business and have developed unique avionics upgrade and retrofit processes. We put our customers and their aircraft first and do what it takes to deliver superior service and maximum performance from your entire aircraft.
