

# Honeywell TPE331

**Value. Quality. Reliability. These are the words most often associated with StandardAero. As a Honeywell authorized TPE331 maintenance facility for over 45 years, StandardAero continues to be the leader in TPE331 engine maintenance, repair and overhaul services.**

## Lifetime Service Warranty

At StandardAero, quality is not an option. It's a culture developed by our dedicated team of professionals. The quality of workmanship we build into every engine has no expiration date as long as StandardAero continues to service your engine. StandardAero's warranty is transferrable, adding more value to your aircraft.

## Dynamometer Testing

At StandardAero, we test every engine using a Honeywell correlated dynamometer giving us the ability to perform dynamic NTS system testing to ensure your safety. We run a full spectrum vibration analysis of all internal rotating components to reduce the risk of potential component failures. Our engine data collection and processing methods provide a higher level of testing accuracy enabling us to deliver the most reliable product possible.
